

Launch your first workload on Google Cloud with Rackspace Elastic Engineering

Optimize the agility, flexibility and scalability in your Google Cloud investment with the experts at Rackspace Technology.

Partners Rackspace Technology and Google Cloud are working together to help companies maximize the vast capabilities of the Google Cloud Platform™. Our special offer makes it easy and cost effective to optimize your investment.

Google Cloud trusts Rackspace Technology to provide managed services because of our experience and our results-obsessed focus on our customers. Rackspace Technology has won repeat partner-of-the-year awards for migration and infrastructure services on Google Cloud. We consistently deliver high-quality cloud computing expertise and end-to-end support to our customers — and we'll do the same for you.

Special offer for adding new workloads to Google Cloud:

Commit to at least one year of Google Cloud and Rackspace Elastic Engineering services and receive the following:

- Google Cloud Landing Zone*, which enables rapid and secure access to cloud infrastructure
- 10% discount on Rackspace Elastic Engineering, which provides on-demand access to experts who can support and shape your journey to modern IT.

*Funding contribution amount from Google is based on committed contract value. Contact Rackspace for more details

If you are an organization in need of a migration to the cloud or need to modernize your operations for greenfield development, but don't currently have a commitment in place, we invite you to take advantage of this special offer. We can help you modernize your application by leveraging Google cloud-native technologies or deliver a traditional lift-and-shift migration to Google Cloud.

Key Benefits

With this special offer, you'll gain these benefits:

- All-in-one package to get started on Google Cloud
- Google Cloud Landing Zone's secure foundation for beginning your Google Cloud journey
- Ongoing support through the Rackspace Elastic Engineering "do-with" engagement model
- A team of experts to help leverage all of Google Cloud's advantages

Take the Next Step

Let's talk about how Rackspace Technology and Google Cloud can help you achieve your goals.

Key Features

Rackspace Elastic Engineering: We're making it easier to move the needle on the projects that can move your business forward in Google Cloud. Rackspace Elastic Engineering provides your business with on-demand access to a team of highly skilled engineers — collectively called a “pod” — all of whom are trained and certified in Google Cloud.

Your Rackspace Elastic Engineering pod is available to collaborate with your team to ensure your organization fully leverages all the benefits of Google Cloud, while helping you identify, plan and execute projects that transform your IT operations and move you closer to cloud native.

Google Cloud Landing Zone: In addition, your Rackspace Elastic Engineering pod will deliver a fully functional Google Cloud architecture on paper and in infrastructure-as-code within eight weeks. You'll have everything you need to establish an enterprise-scale Google Cloud environment that enables deployment of your first workload using industry and Google best practices. Your elastic engineering pod will deliver working Terraform templates and documentation to help you consistently deploy Google Cloud Landing Zones. In addition, you'll gain knowledge from experts on how to set up and maintain a Google Cloud environment according to best practices.

Landing Zone covers these core Google Cloud areas

Fanatical Experience®

Experts on your side, doing what it takes to get the job done right. From first consultation to daily operations, Rackspace Technology combines the power of always-on service with best-in-class tools and automation to deliver technology when and how you need it.
