

# Rackspace Technology Data Center in a Box

Move-in ready hardware-as-a-service bundle designed for optimized performance and quick deployment.

As more businesses transition their operations to the cloud, the use of on-premises data centers is decreasing. However, colocation still has a place in IT — specifically, for edge computing.

With the growth of powerful mobile devices and capable 5G cellular networks, enterprises have now started thinking beyond their data center and current cloud systems and are moving towards edge computing systems.

To quickly take advantage of these developments, we developed Rackspace Technology Data Center in a Box. As a preconfigured hardware-as-a-service data center, it's a unique, modular, plug-and-play IT solution that can be quickly deployed close to the edge.

## Key Benefits

When you deploy Rackspace Technology Data Center in a Box, you gain these benefits.

**Right-sized consumption model:** This benefit includes these advantages:

- Compelling economics
- Predictable costs and a simple pricing model
- Optimized performance and costs with hybrid cloud
- Simplified supply chain management

**Right time for deployment:** This includes these capabilities:

- Fully integrated solution for easy and quick deployment
- Less unplanned downtime and shorter upgrade windows
- World-class operations and flexible support models
- Migration planning and lifecycle management services

**Right place to run workloads and applications:** This includes these features:

- Multiple global data center locations
- Scalable interconnectivity options
- Hyperscale cloud adjacent
- Existing application ecosystem optimization

**Right strategy and resources:** This includes improvements:

- Fully integrated solution optimized for VMware®
- Open and familiar APIs
- Access to experts and strategic partnerships

## About Rackspace Technology

Rackspace Technology® is your trusted partner across cloud, applications, security, data and infrastructure.

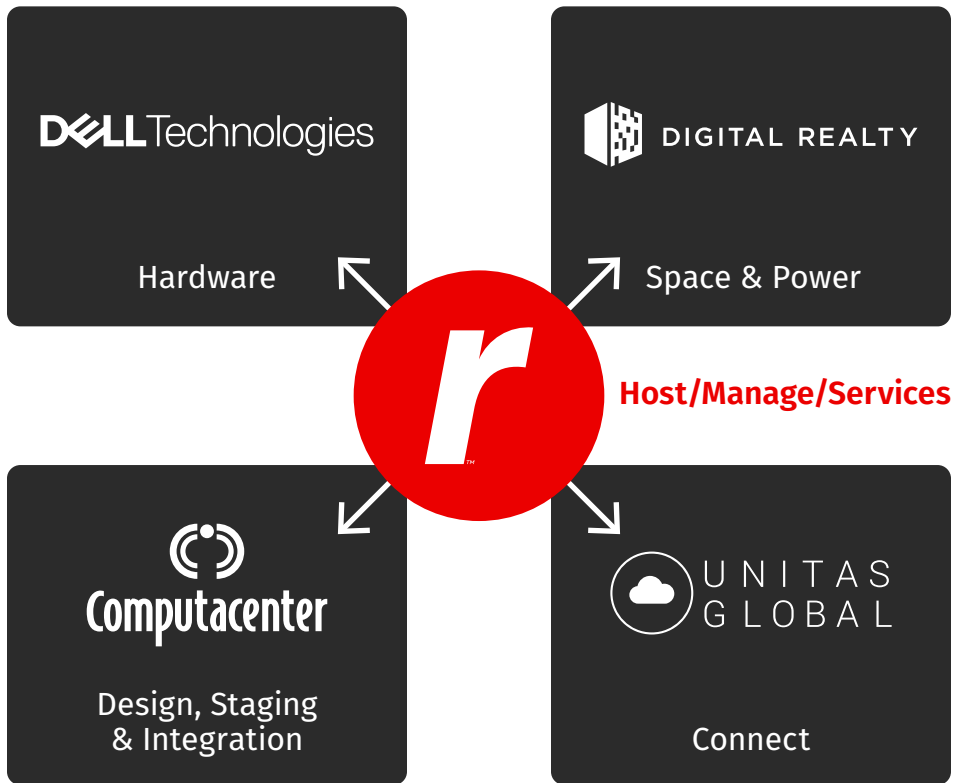

- 2,600+ certified technical experts
- Hosting provider for more than half of the Fortune 100
- 20+ years of hosting experience
- Customers in 120+ countries

## Fanatical Experience®

Experts on your side, doing what it takes to get the job done right. From first consultation to daily operations, Rackspace Technology combines the power of always-on service with best-in-class tools and automation to deliver technology when and how you need it.

## Partner with the Best

We have partnered with the best providers to bring you this unique solution, including Dell Technologies, Digital Realty, Computacenter and Unitas Global.

## Take the Next Step

Let's talk about how Rackspace Technology data center expertise helps take advantage of edge computing.
