

Rackspace Service Blocks: Cloud Foundation for Azure

Certified Azure expertise for simplified cloud management.

As a leading cloud services provider, Rackspace understands that no two cloud journeys are the same. Cloud support and management requirements vary from organization to organization. Rackspace Managed Public Clouds Service Blocks meet you exactly where you are on your cloud journey, allowing you to build customized cloud solutions that meet your specific needs.

Why Cloud Foundation for Azure?

All Rackspace customized service offers start with Cloud Foundation, which provides around-the-clock access to cloud expertise and a consolidated control panel for simplified management of your Microsoft® Azure® accounts. You can easily combine Cloud Foundation with other offers to address additional needs, and you can change or expand offers as your requirements evolve over time.

Key Features

Account & User Management: The Rackspace consolidated control panel allows for easy, single-pane-of-glass management of multiple accounts. You can also define and manage user roles and permissions across your organization.

Always-On Support: Rackspace has enabled countless custom deployments, solved challenges for customers across every industry, and maintains partnerships with leading vendors and providers. With deep cloud experience and expertise, Rackspace is prepared for anything and everything. Cloud Foundation provides guidance and support for your Azure issues and questions.

Prioritized Escalations: Rackspace offers escalation support from Azure support teams for critical issues.

Add-On Services: Build customized cloud services by adding available offers, including Architect and Deploy, Manage and Operate, and Complex Cloud Operations.

Fanatical Experience™

Experts on your side, doing what it takes to get the job done right. From first consultation to daily operations, Rackspace combines the power of always-on service with best-in-class tools and automation to deliver technology when and how you need it.

Additional Services

Every business faces unique challenges, and Rackspace services offer flexible, specialized cloud solutions to solve your constantly evolving needs — regardless of where you are in your cloud journey. Additional Managed Public Cloud Service Blocks include:

Architect and Deploy: Certified cloud architects design, build and deploy your cloud infrastructure to meet your specific requirements, leveraging cloud architecture best practices for optimal performance and reliability.

Manage and Operate: Automation, enhanced tooling and 24x7x365 operational support from an army of certified Azure specialists reduce the burden of managing, monitoring and operating your public cloud infrastructure.

Complex Cloud Operations: Get access to advanced, named technical resources, including solution architects, lead engineers, containers/Kubernetes experts and DevOps experts to optimize public cloud operations and architectural infrastructure.

Take the Next Step

Let's talk about how Rackspace Microsoft Azure expertise helps you achieve your goals.
