Experts Dedicated to Your Success
As a leader in supporting Microsoft® solutions and the deployment and management of ERP and CRM solutions, Rackspace can provide you with specialized service and support for Microsoft Dynamics 365. Count on Rackspace cloud and solution experts to help you make the most of this powerful Microsoft business application.

Key Features
Microsoft Dynamics 365 Business Central is a business management solution for small and mid-sized organizations that automates and streamlines business processes and helps you manage your business. Highly adaptable and rich with features, Dynamics 365 Business Central enables companies to manage their business, including finance, manufacturing, sales, shipping, project management, services and more.

Companies can easily add functionality that is relevant to the region of operation and that is customized to support even highly specialized industries. Plus, since Microsoft Dynamics 365 Business Central integrates tightly with Outlook and Office 365, you can streamline a wide range of processes — such as retrieving and managing customer data in real-time.

Manage your financials
• Connect data across accounting, sales, purchasing, inventory and customer interactions to get an end-to-end view of your business.
• Chart financial performance in real time with built-in Power BI dashboards.
• Streamline account receivables and payables, and automatically reconcile accounts to close and report on financials quickly and accurately, while maintaining compliance.
• Refine financial forecasts by modeling and analyzing data across multiple dimensions. Customize reports using seamless Microsoft Excel integration.

Automate and secure your supply chain
• Optimize inventory levels with built-in intelligence to predict when and what to replenish. Purchase only what you need with dynamically updated inventory levels.
• Get recommendations on when to pay vendors to use vendor discounts or avoid overdue penalties. Prevent unnecessary or fraudulent purchases through approval workflows.

Sell smarter and improve customer service
• Prioritize sales leads based on revenue potential. Keep track of all customer interactions and get guidance on the best upsell, cross-sell and renewal opportunities throughout your sales cycle.
• Accelerate the quote-to-cash process. Act quickly on sales-related inquiries, manage service requests and process payments — all from within Outlook.
