

Rackspace Oracle Solutions Powered by Pure Storage

Fully managed, enterprise-grade Oracle solutions for the NVMe-based Pure Storage FlashArray Dedicated Block Solution.

Rackspace Fully Managed Oracle® solutions offer the unprecedented power, scale, cost-efficiency, simplicity and ease of use required to quickly orchestrate your environment and achieve enterprise-grade reliability. Rackspace solutions are fully managed and backed by 24x7x365 access to support, so you can forget about devoting IT resources to administrative tasks and focus instead on your business priorities. Rackspace Oracle solutions leveraging the Pure Storage® FlashArray™ Dedicated Block Solution help ensure that you get simplified deployment and best-in-class performance with rapid response times and rich enterprise data services.

Experts Dedicated to Your Success

Rackspace Oracle solutions powered by the Pure Storage FlashArray Dedicated Block Solution are delivered globally by highly qualified and trained engineers who expertly provision, configure, administer and maintain your environment.

The Pure Storage FlashArray Dedicated Block service is ideal for high-performance, mission-critical Oracle databases, advanced analytics, and mobile app and tools that require fast, consistent performance along with enterprise-rich data services.

Key Features

Rackspace designs and builds Oracle solutions according to your unique needs. Oracle Solutions Powered by Pure Storage offer:

Fast performance: Leverage Pure Storage 100% NVMe FlashArray to provide the fast access, high availability and sub-millisecond latency required by your Oracle data while accelerating business-critical application performance.

Database scaling and optimization: Offload routine tasks to Rackspace DBAs so you can focus on your core business priorities. Rackspace will take care of tasks such as provisioning and resizing new instances, performance tuning, issue diagnosis and query performance detection and analysis.

No data migration: Leverage Pure Storage's Evergreen™ architecture to non-disruptively scale capacity with no requirements for data migration.

Lower TCO: An all NVMe flash storage solution can help you lower TCO with industry-leading data reduction of up to 5:1 for Oracle while reducing costs related to power consumption and cooling. This solution also helps you reduce your physical footprint and administrative overhead.

About Rackspace

Rackspace is your trusted partner across cloud, applications, security, data and infrastructure.

- A leader in the 2019 Gartner Magic Quadrant for Public Cloud Infrastructure Professional and Managed Services, Worldwide
- Elite Partner, Pure Partner Program
- HITRUST CSF-certified dedicated hosting environment
- VMware® Partner Premiere Service Provider
- Five-Time Microsoft Hosting Partner of the Year
- Oracle Gold Partner of the Year
- 3,000+ cloud experts
- Hosting provider for more than half of the Fortune 100
- 20+ years of hosting experience
- Customers in 150+ countries

"We realized these guys and gals really know what they're talking about. It's not just something they put on the tin here. They've actually executed this before."

Scott Strickland :: EVP and CIO, Wyndham Hotels & Resorts

Fanatical Experience™

Experts on your side, doing what it takes to get the job done right. From first consultation to daily operations, Rackspace combines the power of always-on service with best-in-class tools and automation to deliver technology when and how you need it.

Reduce complexity: Get dramatically quick and easy copy, cloning and refresh automation processes with Pure Storage's integrated Copy Automation Tool (CAT) and space-efficient snapshots. The Pure Storage CAT for Oracle has negligible impact on server performance, keeping your data accessible and your performance accelerated.

Business continuity: Get peace of mind that your data is protected by active-active synchronous and asynchronous cluster replication, mirroring, snapshots, nearly instantaneous restores and backups.

Enterprise-ready technology: Rackspace leverages VMware, Microsoft and native Pure Storage replication and Evergreen non-disruptive upgrade capabilities to deliver industry-leading capabilities.

High availability: Your solution is powered by best-in-class Pure Storage FlashArray with a Rackspace guarantee of 99.999% availability.

Services Delivered Your Way

Rackspace has a long history of managing and protecting data for organizations around the world while providing always-on expertise and support. Rackspace is dedicated to your success and will go above and beyond to support your business around-the-clock.

Take the Next Step

Let's talk about how Rackspace Oracle Solutions Powered by Pure Storage expertise helps you achieve your block storage goals.
