

# Rackspace Managed Security Solutions: Quickstart for Compliance

Deploy technologies that help you meet compliance requirements across certifications and standards.

Quickstart for Compliance accelerates the adoption of compliance technology by addressing regimes and standards for PCI, HITRUST, GDPR and more. The pre-designed solution includes a firewall, intrusion detection, multi-factor authentication, log management and other data security technologies. With Quickstart for Compliance, you can meet compliance requirements and provide added visibility to auditors, stakeholders and customers.

## Experts Dedicated to Your Success

Finding, adopting and maintaining the technology that provides visibility and reporting on compliance is a challenge. Quickstart for Compliance leverages a core set of technologies to help you check off compliance requirements without a significant management burden. This allows you to meet the security directives of the business faster, keeping their customers and business safe.

## Key Benefits

Access a ready-to-go solution tailored to your business challenges, backed by the right coverage and capabilities to meet your security needs. Quickstart for Compliance benefits include:

**Solution customization:** Tailored solutions based on your business requirements, existing technology and coverage needs.

**Managed provisioning:** Coordination with leading technology partners to license, provision and configure the solution for your environment.

**Onboarding and handoff:** Documentation and training to provide you with the know-how required to control your solution and generate your desired security outcomes.

**Environment scoping:** Proactive planning to address security coverage as your footprint evolves over time.

**Notifications & reporting:** Ongoing security assessments to maintain your security posture.

## About Rackspace

Rackspace is your trusted partner across cloud, applications, security, data and infrastructure.

- A leader in the 2018 Gartner Magic Quadrant for Public Cloud Infrastructure Managed Service Providers, Worldwide
- 3,000+ cloud experts
- Hosting provider for more than half of the Fortune 100
- 20+ years of hosting experience
- Customers in 150+ countries

*“They have helped SBS significantly in reaching compliance goals, enabling the company to obtain approval from major institutions with some of the industry’s strictest compliance and highest security requirements.”*

**David Schiffer** :: President, Safe Banking Systems

## Fanatical Experience™

Experts on your side, doing what it takes to get the job done right. From first consultation to daily operations, Rackspace combines the power of always-on service with best-in-class tools and automation to deliver technology when and how you need it.

## Key Features

Quickstart for Compliance combines the following features into a comprehensive security package:

**Inline web application firewall:** Protects against common application attacks.

**Intrusion detection:** Includes network and Layer 7 intrusion detection with event filtering.

**Multifactor authentication:** Protects and validates user identities.

**Log management:** Aggregates logs and highlights potentially anomalous users or system activity.

**File encryption and key management:** Provides granular data access policies for dedicated workloads.

### Take the Next Step
