

Rackspace Application Services for SAP on VMware

Modernize your apps for strong performance in the cloud.

As you seek help with managing your current SAP ERP applications like SAP ECC or transforming to new, cutting-edge ones like SAP S/4HANA, Rackspace Application Services for SAP can guide you on your journey — helping you become a digital business faster and with less risk.

Experts Dedicated to Your Success

As the leading multi-cloud specialist with extensive SAP and VMware expertise, Rackspace accelerates the value you get out of your SAP ERP applications and makes Rackspace a trusted partner that offers management services built on industry-leading best practices.

With a global presence, Rackspace provides customers with access to a large pool of technology talent and delivers functional and technical capabilities to continuously deliver on customer-specific business objectives.

Benefits

Better economics: With Rackspace Private Cloud Powered by VMware, customers can see up to 40% savings versus building and operating private clouds themselves. Rackspace Private Cloud Powered by VMware also offers customers a choice of economic models, enabling them to consume private cloud primarily as operating expenses or capital expenditures with innovative on-demand options, including public cloud-like utility pricing.

Agility and innovation: Rackspace will manage your SAP applications so you can focus on creating innovative and differentiated customer experiences.

Reliability: Enjoy the power of proactive, always-on service and expertise with best-in-class tools and automation to receive SAP technology when and how you need.

Key Features

Managed Application Services: Rackspace managed services are designed to help your organization use smart, efficient ways to optimize and generate more value from your SAP ERP application portfolio. Rackspace systems and application integration services, including SAP PI/PO, EDI and MuleSoft® integration and multi-cloud connectivity are designed to deliver value throughout every phase of the application portfolio lifecycle and help you realize an increased level of interoperability and better return on investment through ongoing maintenance and operations.

Managed Application Services include:

- Advanced configuration and optimization
- SAP Basis services
- Administration, monitoring and maintenance
- Data services

About Rackspace

- Customers in 150+ countries
- 20+ years of SAP experience
- SAP-certified HANA operations services
- SAP-certified hosting services
- SAP-certified Partner Center of Expertise
- SAP Silver Partner

"I had never worked with Rackspace and time was short. We had 70 days to migrate our SAP environment. Other providers told us 'no' but Rackspace helped us rethink our approach. Their application expertise was refreshing."

Jason Friedlander :: CTO, Coinstar

Fanatical Experience™

Experts on your side, doing what it takes to get the job done right. From first consultation to daily operations, Rackspace combines the power of always-on service with best-in-class tools and automation to deliver technology when and how you need it.

Hyper-converged architecture: Based on VMware's SDDC Stack (ESXi, vCenter, NSX and vSAN), this solution can scale based on workload requirements.

Single-tenant infrastructure: Dedicated, single-tenant environments help increase security and flexibility while reducing the "noisy neighbor" effect.

Data and compute storage: vSAN delivers high availability data storage and management.

Value-add devices: Physical and virtual infrastructure support services are available.

Services Delivered Your Way

Rackspace excels at service, management and support of VMware environments based on these strengths:

- Hundreds of VMware Certified Professionals (VCPs) on staff with broad experience, including NSX, vSAN and vROps
- 10+ years of VMware expertise and experience gained from operating one of the world's largest VMware vSphere footprints: 100,000+ virtual machines and 10,000+ hypervisors
- Hundreds of VMware-certified professionals available 24x7x365
- Customized delivery focused on business outcomes and IT transformation
- Industry-leading response time SLAs, including 15-minute live response to emergency tickets
