

# Rackspace SAP Solutions Powered by Pure Storage

Fully managed, enterprise-grade SAP & SAP HANA solutions for the NVMe-based Pure Storage FlashArray Dedicated Block Solution.

Rackspace Fully Managed SAP and SAP HANA solutions offer the unprecedented power, scale, cost-efficiency, simplicity and ease of use required to quickly orchestrate your environment and achieve enterprise-grade reliability. Rackspace solutions are fully managed and backed by 24x7x365 access to support, so you can forget about devoting IT resources to administrative tasks and focus instead on your business priorities. Rackspace SAP solutions leveraging the Pure Storage® FlashArray™ Dedicated Block Solution help ensure that you get best-in-class performance with low latency and rich enterprise data services.

## Experts Dedicated to Your Success

Rackspace SAP solutions powered by the Pure Storage FlashArray Dedicated Block Solution is delivered globally by highly qualified and trained engineers, with the expertise to provision, configure, administer and maintain your environment.

Focus your resources on your core competencies while Rackspace handles your storage needs. Your business is backed by always-on support and block storage expertise.

## Key Features

Rackspace designs and builds SAP solutions according to your unique needs. SAP Solutions Powered by Pure Storage offer:

**Fast performance:** Leverage Pure Storage 100% NVMe FlashArray products to provide the fast access, high availability and sub-millisecond latency required for a fast access to your SAP solution and accelerating business application performance.

**Database scaling and optimization:** Offload routine management and maintenance tasks to Rackspace DBAs. Rackspace will take care of tasks such as provisioning, resizing of new instances, performance tuning, issue diagnosis and query performance detection and analysis.

**No data migration:** Leverage Pure Storage's Evergreen™ architecture to non-disruptively scale capacity with no requirements for data migration.

**Lower TCO:** An all NVMe flash storage solution can help you lower TCO with industry-leading data reduction of up to 5:1 for SAP while reducing costs related to power consumption and cooling. This solution also helps you reduce your physical footprint and administrative overhead.

**Reduce complexity:** Employ dramatically easy copy, cloning and refresh automation processes with Pure Storage's proprietary Copy Automation Tool (CAT).
