

Rackspace Financial Services Solutions

Meet demanding regulatory and security requirements with multi-cloud solutions for the financial services sector.

Financial services organizations need a trusted technology partner to guide them through the challenges of digital transformation – from planning and migration, to achieving and maintaining security and compliance requirements, to continuing adoption of emerging technologies. Yet, they often struggle with outdated and difficult to support systems.

To solve these challenges, many financial services organizations are managing their cloud solutions with Rackspace. They are gaining a partner who understands how to create and maintain a secure and compliant environment.

Experts Dedicated to Your Success

Rackspace combines decades of hosting experience, expert guidance and a deep understanding of the security, performance and scaling needs of the financial services industry to deliver secure multi-cloud and hybrid solutions. Our solutions provide compliant IT-as-a-Service (IaaS), on the latest technologies and across applications, data, security and infrastructure, all tailored to the financial services industry – including banking, investment firms, insurance companies, ISVs and fintech organizations.

Key Features

Rackspace offers a range of fully managed, third-party public cloud solutions designed specifically to help financial services organizations stay secure and compliant, including these robust key features:

Security, Governance, Risk Management and Compliance: PCI, ISO, SOC and FISMA compliant solutions, as well as disaster recovery and business continuity solutions, address different financial regulations in multiple regions.

Advisory Services and Migration: Full assessments of your IT architectural landscape, including deployment planning, risk assessments, migration planning, execution and legacy decommissioning.

Management and Optimization: Workload assessments to help prioritize and plan cloud migration, including architectural and cloud readiness assessments and software-defined hybrid clouds.

Big Data: The big data experts at Rackspace can guide you through the entire big data transformation lifecycle – including planning, design, development, support and operation of the platform and IaaS.

Colocation and On-Premises Management: Secure your hardware in Rackspace world-class data centers or leverage its expertise in on-premise environments.

About Rackspace

Rackspace is your trusted partner across cloud, applications, security, data and infrastructure.

- A leader in the 2018 Gartner Magic Quadrant for Public Cloud Infrastructure Managed Service Providers, Worldwide
- 3,000+ cloud experts
- Hosting provider for more than half of the Fortune 100
- 20+ years of hosting experience
- Customers in 150+ countries
- PCI, SOC, ISO and FISMA compliance
- AWS Financial Services Competency Partner

“One of the key reasons that we went with Rackspace in the first place was we were looking for something that we could scale seamlessly with both the bank and the service culture that we could align with.”

David Young :: CTO, Metro Bank

Fanatical Experience™
