

ENCRYPTED EXCHANGE HIPAA-READY EMAIL

Email for healthcare-related businesses with one-click email encryption and mailbox security settings.

Encrypted Exchange is a secure hosted email platform that helps healthcare-related businesses toward achieving HIPAA compliance and safeguarding patient and practice data. Encrypted Exchange gives organizations control over how data is shared via email, both inside and outside the organization.

WHY RACKSPACE FOR ENCRYPTED EXCHANGE?

Rackspace manages the email boxes of thousands of healthcare-related businesses and has deep, proven expertise in both data protection and hosted email products. Our staff of experts, which includes hundreds of Microsoft®-certified professionals, moves or migrates almost 50,000 email boxes every month and manages millions more. You can count on our award-winning support team to keep your email system running smoothly and securely.

KEY BENEFITS & FEATURES

HIPAA-ready email: Encrypted Exchange helps your business or practice achieve HIPAA compliance with tools like one-click email encryption and information rights management to prevent users from sharing sensitive data.

Easy administration: Unlike other solutions, Encrypted Exchange is administered through Rackspace's easy-to-use control panel. No complex scripting or configurations are required to secure your email system.
