

# ENCRYPTED EXCHANGE ONLINE

*Keep your data secure using sophisticated email encryption and intuitive user and mailbox permissions settings.*

Encrypted Exchange Online is a hosted email platform with enhanced security, giving businesses complete control over how data is shared via email, both inside and outside the organization. Combining the leading email hosting of Microsoft® Exchange® Online with the encryption and data controls of Microsoft® Azure® Rights Management, Rackspace Encrypted Exchange Online™ from Rackspace helps organizations secure their data from threats.

## WHY RACKSPACE FOR ENCRYPTED EXCHANGE ONLINE?

Rackspace has deep, proven expertise in hosted email products. Our expert staff, which includes hundreds of Microsoft-certified professionals, moves or migrates more than 50,000 email boxes every month and manages millions more. You can count on our award-winning support team to keep your email system running smoothly and securely.

## KEY BENEFITS

**Security:** Encrypted Exchange Online includes Azure Rights Management pre-configured to provide email encryption. It also includes settings allowing you to control email forwarding and attachments to prevent users from sharing sensitive data.

**Easy administration:** Unlike other solutions, Encrypted Exchange Online is administered through Rackspace's easy-to-use control panel. No complex scripting is required to secure your email system.

### Other key benefits:

- 50GB mailboxes
- Easy-to-configure email encryption
- Rule-based email protection
- Premium anti-spam and anti-virus protection
- 150MB attachments
- Public folders and calendars
