

RACKSPACE APPLICATION SERVICES FOR SITECORE

Proven Sitecore solutions to help you shift your focus back to thrilling your customers.

Rackspace Application Services for Sitecore® removes the complexity of architecting, hosting and monitoring Sitecore while providing easy access to specialized support options tailored for Sitecore XP and Sitecore Commerce customers.

We offer a range of deployment and infrastructure options to suit your businesses needs. This includes your choice of Azure PaaS or IaaS, AWS or private cloud, and allows you to choose managed service offerings for your infrastructure, application and security – while tapping into hundreds of years of collective expertise.

WHY RACKSPACE APPLICATION SERVICES FOR SITECORE?

A great customer experience starts with a high-performing application. Rackspace has built teams of application and infrastructure experts to architect, optimize and support your digital platform. We can significantly increase your chances of a successful deployment and help you maintain a great experience for your customers.

Rackspace is a recognized leader in digital experience solutions and five-time Microsoft Hosting Partner of the Year, so we know what it takes to build and manage the right solution for your online needs.

And we back your solution 24x7x365 with our award-winning Fanatical Support® and an optional 100% Production Platform Uptime Guarantee, so you can focus on what matters most - building great customer experiences, increasing brand loyalty and maximizing ecommerce revenue.

EXPERTISE

- The #1 hosting provider to the Internet Retailer Top 1,000 (seven years running).
- Rackspace offers a full range of solutions to run both ecommerce and content applications for an integrated and cohesive digital solution.
- Rackspace has a full range of predefined, proven reference architectures that have been deployed to 200+ Rackspace customers running on Sitecore, all architected by in-house Sitecore-certified experts for performance, reliability, scalability and security.

SERVICE

We deliver Fanatical Support® – the specialized expertise and 24x7x365, results obsessed customer service that's been a part of our DNA since 1999.

Our architecture support takes the guesswork out of designing the right Sitecore solution and is backed by certified expertise and 24x7x365 guidance.

With Rackspace Application Services tailored offerings for Sitecore, our architects and engineers remove the complexity of architecting, hosting, supporting and scaling Sitecore XP and Sitecore Commerce. And when you choose Application Operations for Digital Apps for Sitecore, a tailored offering for Sitecore customers, you'll have 24x7x365 access to Sitecore certified Application Support Engineers for in-depth application support, monitoring and response.

KEY FEATURES

- **Agility:** Sitecore environments are architected with performance, scalability, high availability and security in mind.
- **Performance:** Optimized environments help ensure fast page loads to keep engagement and conversions high, even through planned events and unexpected surges.
- **Reliability:** We provide an optional 100% Production Platform Uptime Guarantee to help ensure that Sitecore is up and your site is available. And Rackspace experts are always on hand to help solve unforeseen issues.
- **Security:** We proactively adhere to Sitecore best practices and apply service packs and hot-fixes while further offering a wide range of security solutions to protect your brand.
- **Expertise:** We offer self-managed and fully managed service level options, backed 24x7x365 by certified expertise and Fanatical Support.
